

## TMI Managed Service Advantages

- TMI Managed Service is specifically designed for customers who wish to take advantage of the benefits offered by TMI Telebase without all the associated operating costs of managing it themselves.
- TMI will host the client data and provide a fully managed service that will eliminate supplier billing errors, improve telecom expense management, decrease operating costs, and provide an ongoing ROI.
- All expense reporting will be made available to managers and employees via the Web, based on pre-authorized viewing rights assigned by the TMI system administrator in accordance with the client.
- TMI's trained professionals use a process called the "road map to success" to insure a quick and trouble free installation, allowing you to take control and start accruing your savings as soon as possible.

### What are the Benefits?

- **Control** of your **telecom expenditures** without all the **operational headaches**.
- Industry experts indicate potential **5 -15% savings** to your bottom line as a result of billing errors.
  - **Manage** all aspects of your **Telecom expenses**.
